

Spon Gate Primary School

Primary Schools Sports Premium Report Academic Year 2018 - 2019

Background

The Government has provided funding per annum to enhance PE and Sport in Primary Schools. This funding is being jointly provided by the Departments for Education, Health and Culture, Media and Sport, and will see money going directly to primary school headteachers to spend on improving the quality of sport and PE for all their children and to develop healthy lifestyles. The purpose of the funding is that schools will have to spend the sport funding in improving their provision of PE and sport, but they will have the freedom to choose how they do this.

Allocation

Funding for schools has been calculated by the number of primary aged pupils (between the ages of 5 and 11). Based on a full year all schools with 17 or more primary aged pupils will receive a lump sum of plus a premium of £10 per pupil. Spon Gate received £18,650 for the 2018 -2019 academic year.

Accountability

Schools will be held to account for how they spend the sport funding. Schools must publish, on their website, information about their use of the PE and Sport Grant. Schools should publish the amount of grant received; how it has been spent (or will be spent) and what impact the school has seen on pupils' PE and sport participation and attainment as a result, to help to ensure that all pupils develop healthy lifestyles.

Summary of Primary Schools Sports funding 2018 -2019 academic year.

Objectives of spending Primary Schools Sports funding:

- To improve the provision of PE (upskilling of staff)
- To maintain high level of extracurricular sporting opportunities
- To raise the profile of PE, sport and an active lifestyle
- To increase participation in competitive sport

Money granted to spend in the academic year 2018 - 2019

£18,650

Expenditure	Cost	Objectives	Outcomes
Lunchtime and after school sporting provision	£13,350	To maintain high level of extracurricular sporting opportunities To raise the profile of PE, sport and an active lifestyle	The two additional adults, both capable of leading sporting activity, have helped to provide greater provision for children at lunchtime. This has allowed children to: gain greater access to structured sports sessions, develop sporting confidence and ability, increase engagement and enjoyment of sporting activity, develop their teamwork skills, help reach the recommended target of being active for 60 minutes a day.
Transport for external competitions (hire cost and fuel) 1945.16	£2085.16	To increase participation in competitive sports. To raise the profile of PE, sport and an active lifestyle	The hire of minibuses has allowed children to attend tournaments and matches which they would have previously not been able to attend. Children have greatly enjoyed these experiences and we have enjoyed much success. Of particular note was our triumphant boys rowing team that qualified for the school's first ever level 3 school's game competition. They then went on to finish 3 rd in that competition. After competing in a competition, children were praised in assembly, regardless of result, to inspire the rest of the school.
Minibus defensive driving course	£118 X3 £354	To increase participation in competitive sports. To raise the profile of PE, sport and an active lifestyle	Having drivers available to take children to competitions has been a problem in the past. Having three newly qualified drivers has allowed more children to attend competitions
Swimming top-up sessions	£300	To provide an extra opportunity for the children that can't swim 25m unassisted a chance to improve their water confidence and safety	The children that went on the course are now more confident around water than they were before.

Annual subscription to the Coventry Primary Schools Sports Association	£60	<p>To broaden the sporting opportunities and experiences available to pupils. To increase participation in competitive sports. The annual subscription allows entry into football league and cup competitions.</p> <p>To raise the profile of PE, sport and an active lifestyle</p>	<p>Children have enjoyed taking part in the football competitions organised by the CPSSA. This year our Year 5/6 football team did very well in reaching the quarter-finals of the Harry Shaw Cup. After competing in a competition, children were praised in assembly, regardless of result, to inspire the rest of the school.</p>
Sainsbury school games contribution towards venue hire and coach hire	£375	<p>To increase participation in competitive sports. To broaden the range of sports played competitively.</p> <p>To raise the profile of PE, sport and an active lifestyle</p>	<p>Children have relished the opportunity to take part in a range of competitions organised through the Sainsbury school games. See below for a full list of activities. After competing in a competition, children were praised in assembly, regardless of result, to inspire the rest of the school.</p>
Bicycle competency course	£662.50	<p>To maintain high level of extracurricular sporting opportunities</p> <p>To raise the profile of PE, sport and an active lifestyle</p>	<p>All children in Year 5 completed the course and have all improved their cycling ability. Some had never ridden a bike before and now have an extra physical activity that they are now capable of doing in their own time</p>
Rugby Coaching Course and after school provision	£330.00	<p>To improve the provision of PE (upskilling of staff).</p> <p>To maintain high level of extracurricular sporting opportunities</p> <p>To raise the profile of PE, sport and an active lifestyle</p>	<p>The member of staff who participated in this course, which was a mix of observing and shared teaching of lessons, had no knowledge of teaching rugby and low confidence in teaching invasion games in general. After completing the course, the member of staff is now capable of teaching rugby and confidence in teaching all invasion games has improved. The afterschool provision was given to KS1 children who generally have less sporting extracurricular opportunities compared to KS2.</p>
Swimming Teacher Course	£300	<p>To improve the provision of PE (upskilling of staff).</p>	<p>The member of staff who attended was able to lead and assist the swimming lessons for Year 4 and the booster sessions for Year 6 children this academic year.</p>

PE subject lead meetings with PE expert	£95 X2 £190	To improve the provision of PE (upskilling of staff).	Attending these courses gave the school's PE lead, who was new to the role, increased knowledge on how to best lead the subject. From these courses, improvements have been made to the spending of the sport premium that has been given to the school. The meetings have also provided a networking opportunity that has led to more competitive opportunities for the school to take part in. They have also highlighted areas for improvement for the following academic year.
Supply cover for staff to allow attendance of PE CPD	£200	To improve the provision of PE (upskilling of staff).	Without supply cover staff could not attend the courses. The impact from staff attending the courses is covered for each course above. It is worth noting that the school avoided buying in cover where possible.
Uniform for sports leaders	£306.25	To maintain high level of extracurricular sporting opportunities To raise the profile of PE, sport and an active lifestyle	The number of sports leaders utilised this year has been increased, giving greater provision to the whole school. The sports leaders have greatly improved sporting activity for the younger children of the school during lunchtimes. Having a uniform allows the children to stand out and give them more importance and status which helps them execute their role more effectively.
Medals to reward extra sporting achievement or effort	£99.96	To raise the profile of PE, sport and an active lifestyle	Medals are presented to children who have trained for one of the school teams for the whole academic year in assembly to inspire the other children in the school.
Rounders ball suitable for competition in the School Games competitions	£51.71	To increase in participation in competitive sport	This academic year, we have used tennis balls for our rounders provision. Unfortunately, these are not the same as the rounders balls used in competition. The new balls will allow the school to prepare the children more effectively for the competition and therefore increase their enjoyment.
Total spent:			£18,663.56
Money left to spend in academic year 2019 – 2020:			-£13.56

Impact of primary school sport premium funding and other initiatives against the objectives for the 2018 – 2019 academic year

- **To improve the provision of PE (upskilling of staff)**

The targeted CPD opportunities covered by the funding has led to improvement of PE lessons provided by staff. The CPD for the new PE lead has led to improvements in sporting opportunities for the children and more effective use of the sports premium budget.

We have also enjoyed a number of opportunities provided for free which have enhanced our PE provision. Outside professionals have led these sessions with class teachers observing. These include:

- Wasps – tackling numbers programme, delivered for 5 weeks in Year 4
- Sky Blue in the community +SportMove and Learn project, delivered for 6 weeks in Year 5

- **To maintain high level of extracurricular sporting opportunities**

There has been a wide range of sports clubs provided at lunchtimes ran by the extra staff employed using sport premium funding. This has given structured sports sessions to KS1 and KS2 allowing all children the opportunity to be active at lunchtimes helping them to reach the target of being active for at least 60 minutes a day. Sports leaders have supported these activities and led extra activities for children in foundation stage.

Spon Gate has continued to offer a high amount of sports clubs afterschool (31 over the year) with the vast majority being funded by sports premium money. The clubs were offered to KS1 and KS2 and have covered all main sports as well as other active clubs such as ballet, WII dance, yoga and She Wins.

After school sports club attendance

In the 2016-2017 academic year, 168 **(69%)** of 244 pupils attended sport clubs funded by sport premium.

In the 2017-2018 academic year, 202 **(73%)** of 277 pupils attended sport clubs funded by sport premium.

In the 2018-2019 academic year, 191 (65%) of 295 pupils attended sport clubs funded by sport premium.

We are delighted that over 190 children have engaged in after school sports participation for at least a term. Many children have taken part in clubs for all three terms.

To promote physical activity for the children that potentially had an inactive lifestyle, the data for the first two terms in KS2 was looked at. There were 74 children that hadn't taken part in any sporting after school clubs. Children that are known to take part in formal physical activity outside of school (football team etc.) were taken out of this, leaving 63 children. These children were then encouraged to join the next term's sport clubs, 15 of the selected children did. A lunchtime club offering simple sport and games activities were then offered to 30 of the children that hadn't joined any of the sports clubs.

- **To increase in participation in competitive sport**

Sport Premium has been used to provide transport including coaches and minibuses to a wide range of sporting competitions and tournaments. We have used competitions to develop our after school clubs and curriculum delivery which has enabled pupils to have the opportunity to practice and develop skills before using competing against other schools. We have entered a wide range of competitions through a variety of providers. Competitions that Spon Gate has entered this year include:

This academic year, the PE lead has developed a close link with another local school where they have held half-termly 'sports mornings'. These have been aimed for children less likely to represent the school in other competitions to give them a taste of competition against another school. Each Year group has taken part in a sport morning where two sports were competed in.

Children taking part in sporting competition against another school

In the 2014-2015 academic year, 83 (**39%**) of 212 pupils represented Spon Gate in competitions. In the 2015-2016 academic year, 145 (**62%**) of 233 pupils represented Spon Gate in competitions. In the 2016-2017 academic year, 110 (**45%**) of 244 pupils represented Spon Gate in competitions. In the 2018-2019 academic year, 225 (**76%**) of 295 pupils represented Spon Gate in competitions.

I am very pleased to see that the amount of children taking part in competitive sport has doubled this academic year.

- **To raise the profile of PE, sport and an active lifestyle**

The profile has been raised through the funding of afterschool and lunchtimes clubs. By having sporting opportunities available and visible to the children they are more likely to take part in them and to talk about them. The money has also been used to fund sporting competitions. The children that compete in these competitions are celebrated in whole school assemblies (regardless of result) to inspire the other children. The CPDs that have been funded by the sport premium have increased teachers knowledge so that they are able to promote and educate children on an active lifestyle better.

The school has also ran many other events that have promoted PE and an active lifestyle that haven't required any funding from the sport premium. These have included:

- Inspired Through Sport athlete visit – An upcoming GB athlete visited the school and talked about their journey to becoming an athlete and the growth mind-set. They also set up physical challenges for the children to take part in.
- School sports day – Themed to the upcoming rugby world cup, each phase has a morning of competition where every child takes part in four events related to fundamental skills.
- School games day – This is a celebration of sport. Each year group competes in teams sports against other class members with a focus on the School Games Values.
- Youth Sport Trust National School Sport Week – This links the five ways of wellbeing to sport. Children have the opportunity to try new sports or variations of well-known sports at lunchtimes.
- Children's mile – As part of Coventry City's festival of running children completed the Children's mile. In the run up to the event, the children ran a total of 12 miles.
- Personal best challenges – Each child would have completed at least two different personal best challenges. The aim of these is to challenge the children to improve themselves and not worry about other people's achievements.

Percentage of children in Year 6 2018 – 19 reaching the national curriculum requirements for swimming and water safety

51% can swim competently, confidently and proficiently over a distance of at least 25 metres.

43% can use a range of strokes effectively [for example, front crawl, backstroke and breaststroke]

51% can perform safe self-rescue in different water-based situations
